Lighting Analysts, Inc. Announces New Website

Littleton, Colorado, USA – April 10, 2018

Lighting Analysts, Inc., a global leader in illumination calculation and visualization software is proud to introduce our new website at www.lightinganalysts.com.

We have taken our previous domains of ***agi32.com*** and ***elumtools.com*** and combined them under a new site using the company domain of ***lightinganalysts.com***. This will eliminate confusion and improve search engine performance for our products. You can continue to reach the site using ***agi32.com*** and ***elumtools.com*** for the foreseeable future. The ***Licaso.com*** microsite remains active and can be reached directly or from the Learn menu on our new ***lightinganalysts.com*** site.

Our intention is to use the new site as primarily a sales and marketing tool. This site provides easy access to our online shopping experience, Trial software downloads, software educational content and training class registration. Technical content has all been moved to our Helpdesk at ***support.agi32.com***. On our helpdesk users can search our knowledgebase from the home page, log in and participate in user forums and create support tickets. All of this is linked from the Support menu on ***lightinganalysts.com***.

This is just the beginning says David Speer, Director of Sales and Marketing for Lighting Analysts. “We are planning continuous improvement in all aspects of our online experience to make it easier to find us and access all of the great things we do under one roof”!
