Software Announcement

Lighting Analysts, Inc. Releases *Luxiflux*[®] Area *Littleton, CO USA – August 28, 2020*

Lighting Analysts, Inc., a world leader in calculation and visualization software for lighting design professionals is pleased to announce the release of *Luxiflux*[®] Area, a web-based exterior lighting calculation tool.

The awaited *Luxiflux*[®] Area tool was designed specifically for luminaire manufacturers websites. The software is used to predict luminaire or pole spacing with point-by-point results for parking lots, area lighting or wall mounted luminaires. *Luxiflux*[®] Area's optimizing algorithms produce results across a cross section of spacings and mounting heights to help select the most cost-effective solution. Built to allow manufacturers to match their brand with logo and flexible color themes, Luxiflux Area is a tremendous value add for companies looking to supplement their web presence with calculations for browsing clients. *Luxiflux*[®] Area's responsive design also allows mobile users' a clean and easy to use experience. "*Browsing customers can get fast answers to their lighting layout questions concerning lighting coverage and luminaire spacing in seconds, then email results to peers and clients directly from a phone or tablet in the field*" says, David Speer VP Business Development for Lighting Analysts.
